

MYOB

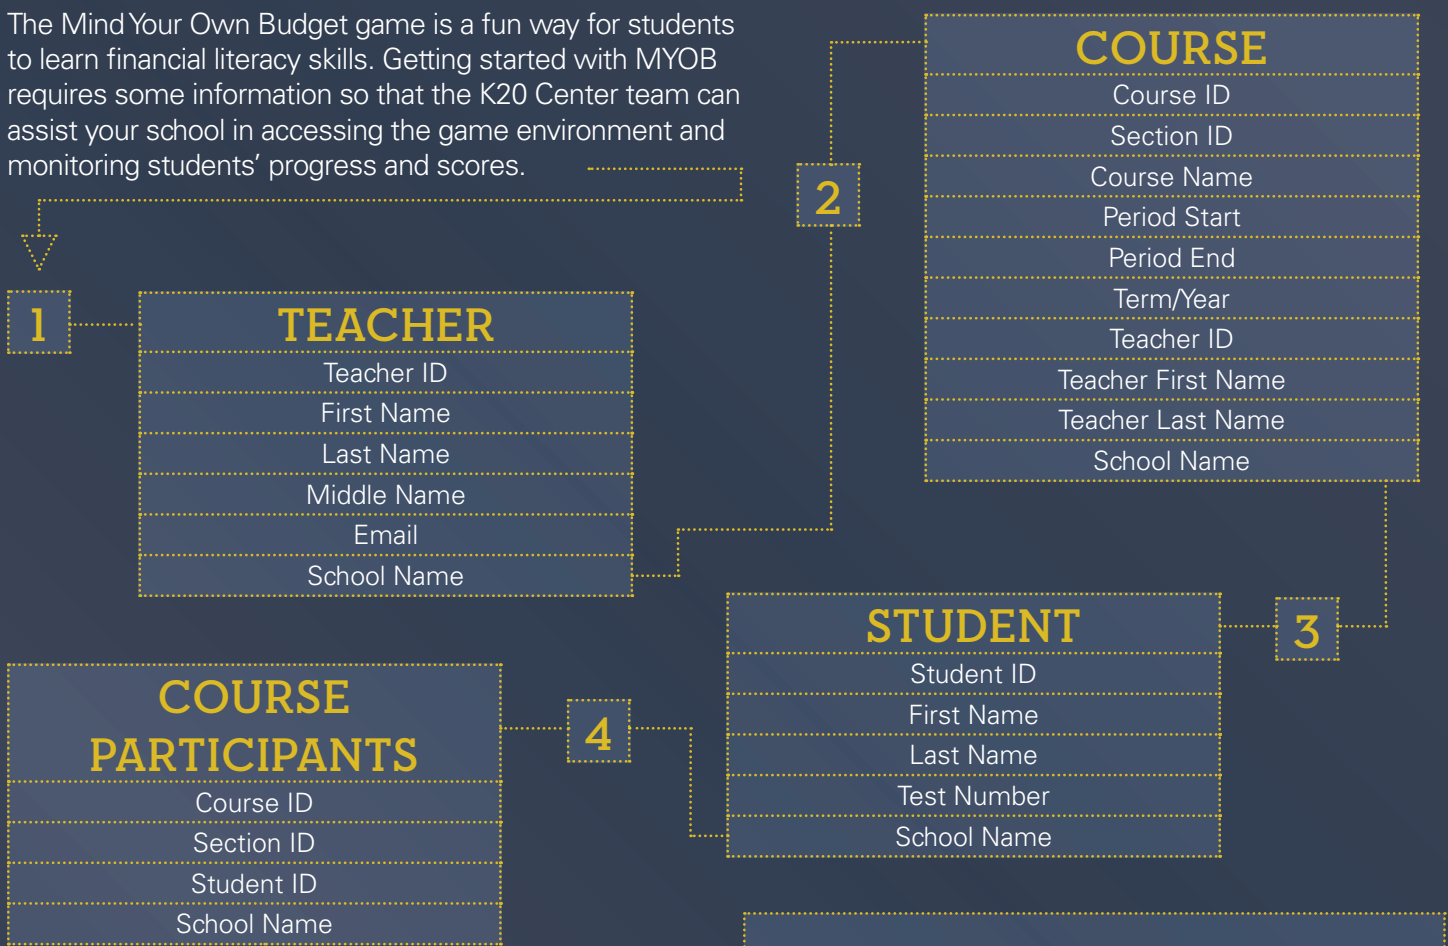

USER DATA

REQUEST

Welcome to Mind Your Own Budget! We are glad to have you! Mind Your Own Budget (MYOB) utilizes a blended approach, mixing instruction and technology in a setting that promotes critical thinking and problem-solving skills while helping prepare students for real-world issues.

The Mind Your Own Budget game is a fun way for students to learn financial literacy skills. Getting started with MYOB requires some information so that the K20 Center team can assist your school in accessing the game environment and monitoring students' progress and scores.

The K20 Center team will need to have this data no more than two weeks prior to the date your students will begin interacting with the MYOB game.

Thank you for your participation, and welcome to the MYOB experience!
